Professional Summary

Frontend & Desktop Software Developer focused on building cross-platform applications and web interfaces. Proficient in **React.js, Electron.js, C#, and JavaScript**. Experienced in developing offline-capable tools with local data caching and clean UI/UX. Practical knowledge of using **GitHub Actions CI/CD** for build automation and handling local file system operations.

Projects

Nexus Game Launcher

- Developed a game library manager using Electron.js and Node.js, featuring a static dashboard for centralized library overview.
- Implemented a local caching system to optimize Steam API data retrieval and reduce application loading latency.
- Designed a cinematic UI with background process management and an integrated timer to track individual game play sessions.

CMD Vault

- Developed a cross-platform command reference tool using Electron.js and Node.js with Arabic and English UI support.
- Implemented an offline-only application using local JavaScript data structures, eliminating the need for internet connectivity or external databases.
- Automated the build process using GitHub Actions to generate cross-platform installers (.exe, .dmg, .AppImage).

TempCleaner (C#)

- Built a system utility to automate the removal of temporary files and Windows update cache.
- Optimized system storage through efficient file system I/O operations.

UST Community - Admin Dashboard

- Developed a full-featured admin panel using React.js for content moderation and user management.
- Integrated real-time activity logs to ensure platform security and operational efficiency.

Core Competencies

Frontend & UI

- HTML5/CSS3, JavaScript
- React.js
- UI/UX Design

Tools & Architecture

- Git/GitHub,
- Data Structure & OOP
- Inno Setup

Desktop & Systems

- C#, C++
- Electron.js
- Node.js

Languages

- Arabic (Native)
- English (B2)

Education and Courses

B.Sc. in Information Technology, *University of Science and Technology* | 2025

Software Engineering Success, *DevZone - Hadhramout Foundation* | 2025

Website Deployment & Server Management (DevOps), *DevZone* | 2025

Front-End Development Training, *University of Science and Technology* | 2022

International Computer Driving License (ICDL), *University of Science and Technology* | 2021
